6010 WOODPRIMER

Good filling, moisture-controlling primer

- Good filling, moisture-controlling primer
- For exterior use

KNOW-HOW TO PROTECT™

WWW.RUST-OLEUM.EU
DESCRIPTION
Good filling, moisture-controlling primer based on an alkyd resin. Suitable for woodwork and pre-treated metal. Available in white, grey and black. For exterior use.

RECOMMENDED USE
Rust-Oleum Primer is a high-build, moisture regulating primer for outdoor use. It is based on a modified alkyd resin. It is used in combination with Rust-Oleum lacquers for maximum durability.

RECOMMENDED SYSTEM
Suitable as a primer on wood, existing coating of alkyd layers, and as an intermediate coating on pre-treated metal. Rust-Oleum Primer can remain unaffected for several months without any problems and can be applied to wood with a maximum moisture level of 20%.

TECHNICAL DATA
Density g/cm³:
61%
Solids content in volume:
Ongeveer 1.40 g/ml

DRY TIMES BY 20°C/RV 50%
Touch dry: 2 hours
Dry to handle: After approx. 3 hours
Dry to recoat: After 19 hours

RECOMMENDED WET FILM THICKNESS
60 µm

RECOMMENDED DRY FILM THICKNESS
35 µm

THEORETICAL CONSUMPTION
16 - 20m²/litres per coat

PRACTICAL CONSUMPTION
The actual usage is dependent on the nature and structure of the surface and the processing method.

SURFACE PREPARATION
The surface must be sound, clean, dry, and free of dust and grease. With wood frames, round off sharp edges so that you can apply a good coating.

Treated/untreated wood
- Clean all the wood using Universol.
- Sand away discoloured wood down to the healthy wood and prime with Rust-Oleum Primer.
- Carry out repairs as needed, sand, and remove all dust.
- Prime untreated wood with Rust-Oleum Primer.
- Once dry, sand lightly, and remove all dust.
- Now apply lacquer, such as Rust-Oleum CombiColor or Mathys Fasiliux.

Existing old layers
- Remove old loose layers.
- Clean all the wood using Universol.
- Sand away discoloured wood down to the healthy wood and prime with Rust-Oleum Primer.
- Carry out repairs as needed and prime with Rust-Oleum Primer.
- Once dry, sand, and remove all dust.
- Prime untreated parts with Rust-Oleum Primer.
- Once dry, sand lightly, and remove alidust.

Available colours & pack sizes: Please refer to the respective product page on www.rust-oleum.eu for an overview of actual available colours and pack sizes.
