METAL CLADDING TOPCOAT

DESCRIPTION

Waterborne satin gloss decorative topcoat for use on metal objects and cladding

RECOMMENDED USE

Finish on metal cladding or any metal surface primed with Metal Cladding Primer, PVDF Primer, NOXYDE® or PEGANOX®. Also directly onto aged Plastisol in good condition.

TECHNICAL DATA

 Density (g/cm³):
 1,3

 Gloss Level:
 Satin

 Corrosion Class:
 C1/C2 low protection

 Solids content in volume:
 33%

DRY TIMES BY 20° C/RH 50%

Touch dry: Dry to handle: Dry to recoat: Fully cured:

RECOMMENDED WET FILM THICKNESS

1 hour

5 hours

8 hours 2 davs

130 um

RECOMMENDED DRY FILM THICKNESS 45 μm

THEORETICAL CONSUMPTION

8 m²/l

PRACTICAL CONSUMPTION

Practical coverage depends on many factors such as porosity and roughness of the substrate and material losses during application.

SURFACE PREPARATION

Can be applied directly on substrates primed with Metal Cladding Primer, NOXYDE® or PEGANOX®. Can also be applied on old sound paints; glossy paints will be roughed up slightly. In all cases, the substrate must be sufficiently dry and clean. Apply 1 - 2 coats of the Metal Cladding Topcoat.

DIRECTIONS FOR USE

To ensure homogeneity, coating materials should be thoroughly stirred prior to use.

APPLICATION CONDITIONS

Temperature minimum 10°C / max. 80% R.H.

APPLICATION & THINNING: BRUSH

Apply undiluted in 2 coats by preference.

APPLICATION & THINNING: ROLLER

Apply undiluted in 2 coats by preference. Use short nap roller.

APPLICATION & THINNING: AIRLESS SPRAY

Nozzle: 013 – 015 / Pressure: 160 bar. 1 coat is sufficient in most cases, if there is no big colour difference with the previous coat. If necessary dilute with water. Check WFT and avoid over thicknesses, especially for dark colors. Too high film thickness can result in blistering.

APPLICATION & THINNING: AIR-ATOMISED SPRAY

Not recommended.

CLEANING OF EQUIPMENT / SPILLS Water

REMARKS

Do not apply in full sun or too hot conditions, to avoid a decreased flow. The product can remain a little sticky if it is used on new Plastisol cladding.
